**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**  
**(in thousands of dollars, except unit amounts and per unit data)**

**1. Description of Business and Basis of Presentation**

***Description of Business***

Westlake Chemical Partners LP (the "Partnership") is a Delaware limited partnership formed in March 2014 to operate, acquire and develop ethylene production facilities and related assets. On August 4, 2014, the Partnership completed its initial public offering (the "IPO") of 12,937,500 common units representing limited partner interests. On September 29, 2017, the Partnership completed a secondary offering of 5,175,000 common units at a price of \$22.00 per unit. On March 29, 2019, the Partnership completed the issuance and sale of 2,940,818 common units at a price of \$21.40 per unit through a private placement. Proceeds to Westlake Partners from the sale of the units were approximately \$62,934.

In connection with the IPO, the Partnership acquired a 10.6% interest in Westlake Chemical OpCo LP ("OpCo") and a 100% interest in Westlake Chemical OpCo GP LLC ("OpCo GP"), which is the general partner of OpCo. On April 29, 2015, the Partnership purchased an additional 2.7% newly-issued limited partner interest in OpCo for approximately \$135,341, resulting in an aggregate 13.3% limited partner interest in OpCo, effective April 1, 2015. On September 29, 2017, the Partnership purchased an additional 5.0% newly-issued limited partner interest in OpCo for approximately \$229,207, resulting in an aggregate 18.3% limited partner interest in OpCo, effective as of July 1, 2017. On March 29, 2019, the Partnership purchased an additional 4.5% newly-issued limited partner interest in OpCo for approximately \$201,445, resulting in an aggregate 22.8% limited partner interest in OpCo, effective January 1, 2019. The remaining 77.2% limited partner interest in OpCo is owned by Westlake Chemical Corporation.

OpCo owns three ethylene production facilities and a common carrier ethylene pipeline.

***Basis of Presentation***

The accompanying unaudited consolidated interim financial statements were prepared in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim periods. Accordingly, certain information and footnotes required for complete financial statements under generally accepted accounting principles in the United States ("U.S. GAAP") have not been included. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto of the Partnership included in the annual report on Form 10-K for the fiscal year ended December 31, 2018 (the "2018 Form 10-K"), filed with the SEC on March 1, 2019. These financial statements have been prepared in conformity with the accounting principles and practices as disclosed in the notes to the consolidated financial statements of the Partnership for the fiscal year ended December 31, 2018 with the exceptions of those accounting standards adopted in 2019 as discussed in Note 1.

References to "Westlake" refer collectively to Westlake Chemical Corporation and its subsidiaries, other than the Partnership, OpCo and OpCo GP.

The Partnership holds a 22.8% limited partner interest and the entire non-economic general partner interest in OpCo. The remaining 77.2% limited partner interest in OpCo is owned by Westlake, which has no rights to direct the activities that most significantly impact the economic performance of OpCo. As a result of the fact that substantially all of OpCo's activities are conducted on behalf of Westlake, and the fact that OpCo exhibits disproportionality of voting rights to economic interest, OpCo was deemed to be a variable interest entity. The Partnership, through its ownership of OpCo's general partner, has the power to direct the activities that most significantly impact the economic performance of OpCo, and it also has the obligation or right to absorb losses or receive benefits from OpCo that could potentially be significant to OpCo. As such, the Partnership was determined to be OpCo's primary beneficiary and therefore consolidates OpCo's results of operations and financial position. Westlake's retained interest of 77.2% is recorded as noncontrolling interest in the Partnership's consolidated financial statements.

In the opinion of the Partnership's management, the accompanying unaudited consolidated interim financial statements reflect all adjustments (consisting only of normal recurring adjustments) that are necessary for a fair statement of the Partnership's financial position as of March 31, 2019, its results of operations for the three months ended March 31, 2019 and 2018 and the changes in its cash position for the three months ended March 31, 2019 and 2018.

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
**(Unaudited)**  
**(in thousands of dollars, except unit amounts and per unit data)**

Results of operations and changes in cash position for the interim periods presented are not necessarily indicative of the results that will be realized for the fiscal year ending December 31, 2019 or any other interim period. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ materially from those estimates.

**Recent Accounting Pronouncements**

*Credit Losses (ASU No. 2016-13)*

In June 2016, the FASB issued an accounting standards update providing new guidance for the accounting for credit losses on loans and other financial instruments. The new guidance introduces an approach based on expected losses to estimate credit losses on certain types of financial instruments. The standard also modifies the impairment model for available-for-sale debt securities and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. The accounting standard will be effective for reporting periods beginning after December 15, 2019 and is not expected to have a material impact on the Partnership's consolidated financial position, results of operations and cash flows.

*Fair Value Measurement (ASU No. 2018-13)*

In August 2018, the FASB issued an accounting standards update to modify the disclosure requirements on fair value measurements. The amendments are effective for reporting periods beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until the effective date. Most amendments should be applied retrospectively but certain amendments should be applied prospectively. The Partnership is in the process of evaluating the impact that the new accounting guidance will have on the Partnership's consolidated financial position, results of operations and cash flows.

**Recently Adopted Accounting Standards**

*Leases (ASU No. 2016-02)*

In February 2016, the FASB issued an accounting standards update on lease accounting that supersedes the previously issued lease guidance. The new standard requires lessees to recognize assets and liabilities for all long-term operating leases. An asset is recognized for the right to use an underlying leased asset and a liability is recognized for the obligation to make payments over the lease term. The standard also requires expanded lease disclosures. The standard requires a modified retrospective adoption approach and allows for the election of certain transition expedients.

The Partnership adopted the standard effective January 1, 2019 using the optional transition method which allows entities to recognize a cumulative adjustment to the opening balance sheet in the period of adoption. The Partnership elected the package of optional transition expedients and was not required to reassess (1) whether any existing contracts are or contain leases, (2) classification of existing leases as operating or capital or (3) whether initial direct costs for existing leases qualify for capitalization under the new accounting standard. The Partnership did not elect the use of hindsight to determine the lease term when considering lease renewal or termination options. Adoption of the new standard did not have a material impact on the Partnership's consolidated financial position, results of operations and cash flows.

**2. Accounts Receivable—Third Parties**

Accounts receivable—third parties consist of the following:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Trade customers	\$ 14,455	\$ 17,325
Allowance for doubtful accounts	(728)	(921)
	<u>13,727</u>	<u>16,404</u>
Other	1,768	—
Accounts receivable, net—third parties	<u>\$ 15,495</u>	<u>\$ 16,404</u>

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
**(Unaudited)**  
**(in thousands of dollars, except unit amounts and per unit data)**

**3. Inventories**

Inventories consist of the following:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Finished products	\$ 3,741	\$ 3,876
Feedstock, additives and chemicals	430	512
<b>Inventories</b>	<b>\$ 4,171</b>	<b>\$ 4,388</b>

**4. Property, Plant and Equipment**

Depreciation expense on property, plant and equipment of \$22,214 and \$22,157 is included in cost of sales in the consolidated statements of operations for the three months ended March 31, 2019 and 2018, respectively.

**5. Deferred Charges and Other Assets**

Amortization expense on other assets of \$4,630 and \$5,541 is included in costs of sales in the consolidated statements of operations for the three months ended March 31, 2019 and 2018, respectively.

**6. Distributions and Net Income Per Limited Partner Unit**

On April 30, 2019, the board of directors of Westlake Chemical Partners GP LLC ("Westlake GP"), the Partnership's general partner, declared a quarterly cash distribution for the three months ended March 31, 2019 of \$0.4452 per unit. This distribution is payable on May 28, 2019 to the unitholders of record as of May 13, 2019.

The distributions are declared subsequent to quarter end; therefore, the table below represents total distributions declared from earnings of the related periods pertaining to such distributions.

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
Net income attributable to the Partnership	\$ 14,955	\$ 12,295
Less:		
Limited partners' distributions declared on common units	15,666	12,814
Distributions declared with respect to the incentive distribution rights	—	733
<b>Net income in excess of distribution (distribution in excess of net income)</b>	<b>\$ (711)</b>	<b>\$ (1,252)</b>

Net income per unit applicable to common limited partner units is computed by dividing the respective limited partners' interest in net income by the weighted-average number of common units outstanding for the period. Because the Partnership has more than one class of participating securities, it uses the two-class method when calculating the net income per unit applicable to limited partners. The classes of participating securities include common units and incentive distribution rights. Net income attributable to the Partnership is allocated to the unitholders in accordance with their respective ownership percentages in preparation of the consolidated statement of equity. However, when distributions related to the incentive distribution rights are made, net income equal to the amount of those distributions is first allocated to the general partner before the remaining net income is allocated to the unitholders based on their respective ownership percentages. Basic and diluted net income per unit is the same because the Partnership does not have any potentially dilutive units outstanding for the periods presented.

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
(Unaudited)  
(in thousands of dollars, except unit amounts and per unit data)

	<b>Three Months Ended March 31, 2019</b>		
	<b>Limited Partners' Common Units</b>	<b>Incentive Distribution Rights</b>	<b>Total</b>
<b>Net income attributable to the Partnership:</b>			
Distribution declared	\$ 15,666	\$ —	\$ 15,666
Distribution in excess of net income	(711)	—	(711)
Net income	<u>\$ 14,955</u>	<u>\$ —</u>	<u>\$ 14,955</u>
<b>Weighted average units outstanding:</b>			
Basic and diluted	<u>32,345,398</u>		<u>32,345,398</u>
<b>Net income per limited partner unit:</b>			
Basic and diluted	<u>\$ 0.46</u>		
<b>Three Months Ended March 31, 2018</b>			
	<b>Limited Partners' Common Units</b>	<b>Incentive Distribution Rights</b>	<b>Total</b>
<b>Net income attributable to the Partnership:</b>			
Distribution declared	\$ 12,814	\$ 733	\$ 13,547
Distribution in excess of net income	(1,252)	—	(1,252)
Net income	<u>\$ 11,562</u>	<u>\$ 733</u>	<u>\$ 12,295</u>
<b>Weighted average units outstanding:</b>			
Basic and diluted	<u>32,236,449</u>		<u>32,236,449</u>
<b>Net income per limited partner unit:</b>			
Basic and diluted	<u>\$ 0.36</u>		

The amended Partnership Agreement provides that the Partnership will distribute cash each quarter to all the unitholders, pro rata, until each unit has received a distribution of \$1.2938. If cash distributions to the Partnership's unitholders exceed \$1.2938 per unit in any quarter, the Partnership's unitholders and Westlake, as the holder of the Partnership's incentive distribution rights, will receive distributions according to the following percentage allocations:

<b>Total Quarterly Distribution Per Unit</b>	<b>Marginal Percentage Interest in Distributions</b>	
	<b>Unitholders</b>	<b>IDR Holders</b>
Above \$1.2938 up to \$1.4063	85.0%	15.0%
Above \$1.4063 up to \$1.6875	75.0%	25.0%
Above \$1.6875	50.0%	50.0%

The Partnership's distribution for the three months ended March 31, 2019 did not exceed the \$1.2938 per unit threshold, and, as a result, no distribution was made with respect to the Partnership's incentive distribution rights to Westlake, as the holder of the Partnership's incentive distribution rights.

***Distribution Per Common Unit***

Distributions per common unit for the three months ended March 31, 2019 and 2018 were as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
Distributions per common unit	<u>\$ 0.4328</u>	<u>\$ 0.3864</u>

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
**(Unaudited)**  
**(in thousands of dollars, except unit amounts and per unit data)**

### 7. Partners' Equity

On October 4, 2018, the Partnership and Westlake GP, the general partner of the Partnership, entered into an Equity Distribution Agreement with UBS Securities LLC, Barclays Capital Inc., Citigroup Global Markets Inc., Deutsche Bank Securities Inc., RBC Capital Markets, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC to offer and sell the Partnership's common units, from time to time, up to an aggregate offering amount of \$50,000. No common units had been issued under this program as of March 31, 2019.

On March 29, 2019, the Partnership completed the issuance and sale of 2,940,818 common units at a price of \$21.40 per unit through a private placement. Proceeds to the Partnership from the sale of the units were approximately \$62,934. TTWF LP, Westlake's principal stockholder and a related party, acquired 1,401,869 common units out of 2,940,818 common units issued in the private placement.

### 8. Related Party Transactions

The Partnership and OpCo regularly enter into related party transactions with Westlake. See below for a description of transactions with related parties.

#### *Sales to Related Parties*

OpCo sells ethylene to Westlake under the Ethylene Sales Agreement. Additionally, the Partnership and OpCo from time to time provide other services or products for which each charges Westlake a fee.

Sales to related parties were as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
Net sales—Westlake	\$ 257,040	\$ 235,031

#### *Cost of Sales from Related Parties*

Charges for goods and services purchased by the Partnership and OpCo from Westlake and included in cost of sales relate primarily to feedstock purchased under the Feedstock Supply Agreement and services provided under the Services and Secondment Agreement.

Charges from related parties in cost of sales were as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
Feedstock purchased from Westlake and included in cost of sales	\$ 122,155	\$ 105,415
Other charges from Westlake and included in cost of sales	27,572	28,406
Total	\$ 149,727	\$ 133,821

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
(Unaudited)  
(in thousands of dollars, except unit amounts and per unit data)

***Services from Related Parties Included in Selling, General and Administrative Expenses***

Charges for services purchased by the Partnership from Westlake and included in selling, general and administrative expenses primarily relate to services Westlake performs on behalf of the Partnership under the Omnibus Agreement, including the Partnership's finance, legal, information technology, human resources, communication, ethics and compliance and other administrative functions.

Charges from related parties included within selling, general and administrative expenses were as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
Services received from Westlake and included in selling, general and administrative expenses	\$ 6,603	\$ 6,251

***Goods and Services from Related Parties Capitalized as Assets***

Charges for goods and services purchased by the Partnership and OpCo from Westlake which were capitalized as assets relate primarily to the services of Westlake employees under the Services and Secondment Agreement.

Charges from related parties for goods and services capitalized as assets were as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
Goods and services purchased from Westlake and capitalized as assets	\$ 643	\$ 351

***Receivable under the Investment Management Agreement***

On August 1, 2017, the Partnership, OpCo and Westlake executed an investment management agreement (the "Investment Management Agreement") that authorized Westlake to invest the Partnership's and OpCo's excess cash with Westlake for a term of up to a maximum of nine months. Per the terms of the Investment Management Agreement, the Partnership earns a market return plus five basis points and Westlake provides daily availability of the invested cash to meet any liquidity needs of the Partnership or OpCo. Accrued interest of \$34 and \$496 was included in the receivable under the Investment Management Agreement balance at March 31, 2019 and December 31, 2018, respectively. Total interest earned related to the Investment Management Agreement was \$818 and \$540 for the three months ended March 31, 2019 and 2018, respectively.

The Partnership's receivable under the Investment Management Agreement was as follows:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Receivable under the Investment Management Agreement	\$ 276,501	\$ 148,956

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
**(Unaudited)**  
**(in thousands of dollars, except unit amounts and per unit data)**

**Accounts Receivables**

The Partnership's accounts receivable from Westlake result primarily from ethylene sales to Westlake under the Ethylene Sales Agreement.

The Partnership's accounts receivable from Westlake were as follows:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Accounts receivable—Westlake	\$ 47,626	\$ 57,280

**Accounts Payable to Related Parties**

The Partnership's accounts payable to Westlake result primarily from feedstock purchases under the Feedstock Supply Agreement and services provided under the Services and Secondment Agreement and the Omnibus Agreement.

The related party accounts payable balances were as follows:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Accounts payable—Westlake	\$ 19,344	\$ 27,477

**Related Party Leases**

OpCo is obligated to Westlake under various rail cars leases. Operating lease rentals paid to Westlake for such leases were \$514 and \$318 for the three months ended March 31, 2019 and 2018, respectively, and reflected in other charges from Westlake that are included in cost of sales.

OpCo has two site lease agreements with Westlake, each of which has a term of 50 years. Pursuant to the site lease agreements, OpCo pays Westlake one dollar per site per year.

**Debt Payable to Related Parties**

See Note 9 for a description of related party debt payable balances. Interest on related party debt payable balances for the three months ended March 31, 2019 and 2018 was \$5,900 and \$4,866, respectively. Interest on related party debt payable is presented as interest expense—Westlake in the consolidated statements of operations. Interest capitalized as a component of property, plant and equipment on related party debt was zero and \$15 for the three months ended March 31, 2019 and 2018, respectively. At March 31, 2019 and December 31, 2018, accrued interest on related party debt was \$5,852 and \$5,448, respectively, and is reflected as a component of accrued liabilities in the consolidated balance sheets.

Debt payable to related parties was as follows:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Long-term debt payable to Westlake	\$ 601,119	\$ 477,608

**Major Customer and Concentration of Credit Risk**

During the three months ended March 31, 2019 and 2018, Westlake accounted for approximately 85.9% and 82.7%, respectively, of the Partnership's net sales.

**Other**

See Note 7 above for an additional related party transaction.

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
(Unaudited)  
(in thousands of dollars, except unit amounts and per unit data)

**9. Long-term Debt Payable to Westlake**

Long-term debt payable to Westlake consists of the following:

	March 31, 2019	December 31, 2018
OpCo Revolver (variable interest rate of LIBOR plus 2.0%, scheduled maturity of September 25, 2023)	\$ 224,064	\$ 224,064
MLP Revolver (variable interest rate of LIBOR plus 2.0%, scheduled maturity of April 29, 2021)	377,055	253,544
	<u>\$ 601,119</u>	<u>\$ 477,608</u>

On March 29, 2019, the Partnership borrowed \$123,512 under the MLP Revolver to partially fund the purchase of the additional 4.5% interest in OpCo.

The weighted average interest rate on all long-term debt was 4.8% and 4.4%, respectively, at March 31, 2019 and December 31, 2018.

As of March 31, 2019, the Partnership was in compliance with all of the covenants under the OpCo Revolver and the MLP Revolver.

**10. Fair Value Measurements**

The Partnership reports certain assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Under the accounting guidance for fair value measurements, inputs used to measure fair value are classified in one of three levels:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The Partnership has financial assets and liabilities subject to fair value measures. These financial assets and liabilities include accounts receivable, net, accounts payable and long-term debt payable to Westlake, all of which are recorded at carrying value. The amounts reported in the consolidated balance sheets for accounts receivable, net and accounts payable approximate their fair value due to the short maturities of these instruments. The carrying and fair values of the Partnership's long-term debt at March 31, 2019 and December 31, 2018 are summarized in the table below. The Partnership's long-term debt includes the OpCo Revolver and the MLP Revolver at March 31, 2019. The fair value of debt is determined based on the present value of expected future cash flows using a discounted cash flow methodology. Because the Partnership's valuation methodology used for long-term debt requires the use of significant unobservable inputs, the inputs used to measure the fair value of the Partnership's long-term debt are classified as Level 3 within the fair value hierarchy. Inputs used to estimate the fair values of the Partnership's long-term debt include the selection of an appropriate discount rate.

	March 31, 2019		December 31, 2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
OpCo Revolver	\$ 224,064	\$ 225,253	\$ 224,064	\$ 221,002
MLP Revolver	377,055	375,365	253,544	249,747

**11. Supplemental Information**

***Accrued Liabilities***

Accrued liabilities were \$20,433 and \$16,250 at March 31, 2019 and December 31, 2018, respectively. Accrued interest, accrued maintenance, capital expenditures and accrued taxes, which are components of accrued liabilities, were \$5,852, \$3,850, \$2,827 and \$2,931, respectively, at March 31, 2019, and \$5,448, \$2,688, \$2,818 and \$1,564, respectively, at December 31, 2018. No other component of accrued liabilities was more than five percent of total current liabilities.

**WESTLAKE CHEMICAL PARTNERS LP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued**  
**(Unaudited)**  
**(in thousands of dollars, except unit amounts and per unit data)**

***Non-cash Investing Activity***

The change in capital expenditure accrual resulted in an increase in additions to property, plant and equipment by \$52 for the three months ended March 31, 2019. The change in capital expenditure accrual resulted in a decrease in additions to property, plant and equipment by \$117 for the three months ended March 31, 2018.

**12. Commitments and Contingencies**

The Partnership is subject to environmental laws and regulations that can impose civil and criminal sanctions and that may require the Partnership to mitigate the effects of contamination caused by the release or disposal of hazardous substances into the environment. These laws include the federal Clean Air Act, the federal Water Pollution Control Act, the Resource Conservation and Recovery Act ("RCRA"), the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), the Toxic Substances Control Act and various other federal, state and local laws and regulations. Under CERCLA, an owner or operator of property may be held strictly liable for remediating contamination without regard to whether that person caused the contamination, and without regard to whether the practices that resulted in the contamination were legal at the time they occurred. Because the Partnership's production sites have a history of industrial use, it is impossible to predict precisely what effect these legal requirements will have on the Partnership. Westlake will indemnify the Partnership for liabilities that occurred or existed prior to August 4, 2014.

The Partnership is involved in various legal proceedings incidental to the conduct of its business. The Partnership does not believe that any of these legal proceedings will have a material adverse effect on its financial condition, results of operations or cash flows.

**13. Subsequent Events**

In April 2019, the Partnership repaid \$201,445 of borrowings under the OpCo Revolver.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This Management's Discussion and Analysis of Financial Condition and Results of Operations section should be read in conjunction with the accompanying consolidated financial statements and the notes thereto and the consolidated financial statements and notes thereto included in Westlake Chemical Partners LP's annual report on Form 10-K for the fiscal year ended December 31, 2018 (the "2018 Form 10-K"), as filed with the SEC on March 1, 2019. Unless otherwise indicated, references in this report to "we," "our," "us" or like terms, refer to Westlake Chemical Partners LP (the "Partnership"), Westlake Chemical OpCo LP ("OpCo") and Westlake Chemical OpCo GP LLC ("OpCo GP"). References to "Westlake" refer to Westlake Chemical Corporation and its consolidated subsidiaries other than the Partnership, OpCo GP and OpCo. The following discussion contains forward-looking statements. Please read "Forward-Looking Statements" for a discussion of limitations inherent in such statements.

**Partnership Overview**

We are a Delaware limited partnership formed by Westlake to operate, acquire and develop ethylene production facilities and related assets. On August 4, 2014, we closed our initial public offering (the "IPO") of 12,937,500 common units. In connection with the IPO, we acquired a 10.6% interest in OpCo and a 100% interest in OpCo GP, which is the general partner of OpCo. On April 29, 2015, we purchased an additional 2.7% newly-issued limited partner interest in OpCo, resulting in an aggregate 13.3% limited partner interest in OpCo, effective April 1, 2015. The 12,686,115 subordinated units of the Partnership, all of which were previously owned by Westlake, were converted into common units of the Partnership on August 30, 2017. On September 29, 2017, we completed a secondary public offering of 5,175,000 common units and purchased an additional 5.0% newly-issued limited partner interest in OpCo, resulting in an aggregate 18.3% limited partner interest in OpCo, effective July 1, 2017. On March 29, 2019, we completed a private placement of 2,940,818 common units and used the proceeds to purchase an additional 4.5% interest in OpCo, effective January 1, 2019, resulting in us owning an aggregate 22.8% limited partner interest in OpCo.

Currently, our sole revenue generating asset is our 22.8% limited partner interest in OpCo, a limited partnership formed by Westlake and us in anticipation of the IPO to own and operate an ethylene production business. We control OpCo through our ownership of its general partner. Westlake retains the remaining 77.2% limited partner interest in OpCo as well as a significant interest in us through its ownership of our general partner, 40.1% of our limited partner units (consisting of 14,122,230 common units) and our incentive distribution rights. OpCo's assets include (1) two ethylene production facilities ("Petro 1" and "Petro 2" and, collectively, "Lake Charles Olefins") at Westlake's Lake Charles, Louisiana site; (2) one ethylene production facility ("Calvert City Olefins") at Westlake's Calvert City, Kentucky site; and (3) a 200-mile common carrier ethylene pipeline (the "Longview Pipeline") that runs from Mont Belvieu, Texas to Westlake's Longview, Texas facility.

### **How We Generate Revenue**

We generate revenue primarily by selling ethylene and the resulting co-products we produce. OpCo and Westlake have entered into an ethylene sales agreement (the "Ethylene Sales Agreement") pursuant to which we generate a substantial majority of our revenue. The Ethylene Sales Agreement is a long-term, fee-based agreement with a minimum purchase commitment and includes variable pricing based on OpCo's actual feedstock and natural gas costs and estimated other costs of producing ethylene (including OpCo's estimated operating costs and a five-year average of OpCo's expected future maintenance capital expenditures and other turnaround expenditures based on OpCo's planned ethylene production capacity for the year), plus a fixed margin per pound of \$0.10 less revenue from co-products sales. Pursuant to the Ethylene Sales Agreement, Westlake's obligation to pay for the annual minimum commitment (95% of OpCo's budgeted ethylene production), which is measured at the end of the year, is generally not reduced for the first 45 days of a force majeure event, but is reduced for the portion of a force majeure event extending beyond the 45th day.

Westlake has an option to take 95% of volumes in excess of the minimum commitment on an annual basis under the Ethylene Sales Agreement if we produce more than our planned production. Under the Ethylene Sales Agreement, the price for the sale of such excess ethylene to Westlake is based on a formula similar to that used for the minimum purchase commitment, with the exception of certain fixed costs. In addition, under the Ethylene Sales Agreement, if production costs billed to Westlake on an annual basis are less than 95% of the actual production costs incurred by OpCo during the contract year, OpCo is entitled to recover the shortfall in such production costs (proportionate to the volume sold to Westlake) in the subsequent year ("Shortfall"). The Shortfall is recognized during the period in which the related operating, maintenance or turnaround activities occur.

### **Operating Expenses, Maintenance Capital Expenditures and Turnaround Costs**

Our management seeks to maximize the profitability of our operations by effectively managing operating expenses, maintenance capital expenditures and turnaround costs. Our operating expenses are comprised primarily of feedstock costs and natural gas, labor expenses (including contractor services), utility costs (other than natural gas) and turnaround and maintenance expenses. With the exception of feedstock, including natural gas, and utilities-related expenses, operating expenses generally remain relatively stable across broad ranges of production volumes but can fluctuate from period to period depending on the circumstances, particularly maintenance and turnaround activities. Our maintenance capital expenditures and turnaround costs are comprised primarily of maintenance of our ethylene production facilities and the amortization of capitalized turnaround costs. These capital expenditures relate to the maintenance and integrity of our facilities. We capitalize the costs of major maintenance activities, or turnarounds, and amortize the costs over the period until the next planned turnaround of the affected facility.

Operating expenses, maintenance capital expenditures and turnaround costs are built into the price per pound of ethylene charged to Westlake under the Ethylene Sales Agreement. Because the expenses other than feedstock costs and natural gas are based on forecasted amounts and remain a fixed component of the price per pound of ethylene sold under the Ethylene Sales Agreement for any given 12-month period, our ability to manage operating expenses, maintenance expenditures and turnaround cost may directly affect our profitability and cash flows. The impact on profitability is partially mitigated by the fact that we recognize any Shortfall as revenue in the period such costs and expenses are incurred. We seek to manage our operating and maintenance expenses on our ethylene production facilities by scheduling maintenance and turnarounds over time to avoid significant variability in our operating margins and minimize the impact on our cash flows, without compromising our commitment to safety and environmental stewardship. In addition, we reserve cash on an annual basis from what we would otherwise distribute to minimize the impact of turnaround costs in the year of incurrence. The purchase price under the Ethylene Sales Agreement is not designed to cover capital expenditures for expansions.

## MLP Distributable Cash Flow and EBITDA

The body of accounting principles generally accepted in the United States is commonly referred to as "GAAP." For this purpose, a non-GAAP financial measure is generally defined by the Securities and Exchange Commission ("SEC") as a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that (1) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows (or equivalent statements) of the registrant; or (2) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. The non-GAAP financial measures described in this Form 10-Q are not substitutes for the GAAP measures of earnings and cash flows. We use each of MLP distributable cash flow and EBITDA to analyze our performance. We define distributable cash flow as net income plus depreciation, amortization and disposition of property, plant and equipment, less contributions for turnaround reserves, maintenance capital expenditures and mark-to-market adjustment on derivative contracts. We define MLP distributable cash flow as distributable cash flow less distributable cash flow attributable to Westlake's noncontrolling interest in OpCo and distributions attributable to the incentive distribution rights holder. MLP distributable cash flow does not reflect changes in working capital balances. We define EBITDA as net income before interest expense, income taxes, depreciation and amortization. MLP distributable cash flow and EBITDA are non-GAAP supplemental financial measures that management and external users of our consolidated financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess:

- our operating performance as compared to other publicly traded partnerships;
- our ability to incur and service debt and fund capital expenditures; and
- the viability of acquisitions and other capital expenditure projects and the returns on investment of various investment opportunities.

We believe that the presentation of MLP distributable cash flow and EBITDA provides useful information to investors in assessing our financial condition and results of operations. The GAAP measures most directly comparable to MLP distributable cash flow are net income and net cash provided by operating activities. MLP distributable cash flow should not be considered as an alternative to GAAP net income or net cash provided by operating activities. MLP distributable cash flow has important limitations as an analytical tool because it excludes some but not all items that affect net income and net cash provided by operating activities. The GAAP measures most directly comparable to EBITDA are net income, income from operations and net cash provided by operating activities, but EBITDA should not be considered an alternative to such GAAP measures. EBITDA has important limitations as an analytical tool because it excludes (1) interest expense, which is a necessary element of our costs and ability to generate revenues because we have borrowed money to finance our operations, (2) depreciation, which is a necessary element of our costs and ability to generate revenues because we use capital assets and (3) income taxes, which is a necessary element of our operations in the jurisdictions we operate in. MLP distributable cash flow and EBITDA should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. See reconciliations for each of MLP distributable cash flow and EBITDA under "Results of Operations" below.

## Recent Developments

In April 2019, the Partnership repaid \$201.4 million of borrowings under the OpCo Revolver.

In March 29, 2019, we completed a private placement of 2,940,818 common units at a price of \$21.40 per unit, resulting in aggregate proceeds to the Partnership of approximately \$62.9 million. We used these net proceeds, along with borrowings under the MLP Revolver, to purchase an additional 4.5% limited partner interest in OpCo for approximately \$201.4 million, effective January 1, 2019, resulting in us owning an aggregate 22.8% limited partner interest in OpCo.

## Results of Operations

	Three Months Ended March 31,	
	2019	2018
	(dollars in thousands)	
<b>Revenue</b>

Add:		
Depreciation and amortization	26,844	27,698
Other income, net	815	491
EBITDA	<u>\$ 111,340</u>	<u>\$ 113,561</u>

## Summary

For the quarter ended March 31, 2019, net income was \$78.4 million on net sales of \$299.1 million. This represents a decrease in net income of \$2.3 million as compared to the quarter ended March 31, 2018 net income of \$80.7 million on net sales of \$284.3 million. Net income for the first quarter of 2019 as compared to the first quarter of 2018 was lower primarily as a result of lower margins on third party ethylene sales resulting from lower ethylene sales prices and higher feedstock costs. Net income attributable to Westlake Chemical Partners LP for the quarter ended March 31, 2019 was \$15.0 million as compared to \$12.3 million for the quarter ended March 31, 2018, an increase of \$2.7 million, which was primarily due to a 4.5% increase in the Partnership's interest in OpCo, effective as of January 1, 2019, partially offset by lower margins on third party sales. Net sales for the first quarter of 2019 increased by \$14.8 million as compared to net sales for the first quarter of 2018 mainly due to increased sales prices for ethylene to Westlake per the terms of the Ethylene Sales Agreement and higher third party sales volume, partially offset by lower sales price to third parties. Income from operations was \$83.7 million for the first quarter of 2019 as compared to \$85.4 million for the first quarter of 2018. Income from operations for the first quarter of 2019 decreased mainly as a result of lower third party ethylene sales margins as compared to the first quarter of 2018.

## RESULTS OF OPERATIONS

### *First Quarter 2019 Compared with First Quarter 2018*

*Net Sales.* Total net sales increased by \$14.8 million, or 5.2%, to \$299.1 million in the first quarter of 2019 from \$284.3 million in the first quarter of 2018. The overall average sales price in the first quarter of 2019 contributed to a 4.6% increase in net sales, due to increased ethylene sales prices to Westlake per the terms of the Ethylene Sales Agreement, partially offset by lower third party sales prices, compared to the first quarter of 2018. The overall increase in sales volumes was a result of higher sales to third parties for the first quarter of 2019, as compared to the first quarter of 2018.

*Gross Profit.* Gross profit decreased to \$90.7 million for the first quarter of 2019 from \$92.5 million for the first quarter of 2018. The gross profit margin in the first quarter of 2019 was 30.3%, as compared to 32.5% for the first quarter of 2018. The first quarter of 2019 gross profit margin was lower mainly due to lower third party sales prices and higher feedstock costs, as compared to the first quarter of 2018.

*Selling, General and Administrative Expenses.* Selling, general and administrative expenses decreased by \$0.1 million, or 1.4%, to \$7.0 million in the first quarter of 2019 as compared to \$7.1 million in the first quarter of 2018. The decrease in the first quarter of 2019 was mainly attributable to a decrease in allowance for doubtful accounts as compared to the first quarter of 2018.

*Interest Expense.* Interest expense increased by \$1.0 million to \$5.9 million in the first quarter of 2019 from \$4.9 million in the first quarter of 2018, largely due to a higher interest rate on debt due to an increase in the London Interbank Offered Rate ("LIBOR"), partially offset by a decrease in the applicable margin on the OpCo Revolver from 3% to 2% effective September 25, 2018.

*Other Income.* The increase in other income in the first quarter of 2019 as compared to the first quarter of 2018 was primarily due to an increase in interest income.

*MLP Distributable Cash Flow.* MLP distributable cash flow increased by \$3.1 million to \$17.6 million in the first quarter of 2019 from \$14.5 million in the first quarter of 2018. The increase in MLP distributable cash flow in the first quarter of 2019, as compared to the prior-year period, was primarily a result of the 4.5% increase in the Partnership's interest in OpCo, effective as of January 1, 2019 and the elimination of the Partnership's distributions to Westlake as the holder of the Partnership's incentive distribution rights per the July 2018 amendment to the Partnership's target distribution tiers. These increases were partially offset by lower margins on third party sales and higher maintenance capital expenditures at OpCo.

*EBITDA.* EBITDA decreased by \$2.3 million to \$111.3 million in the first quarter of 2019 from \$113.6 million in the first quarter of 2018. The decrease in EBITDA as compared to the prior-year period was primarily due to lower third party ethylene sales prices.

## **CASH FLOW DISCUSSION FOR THE THREE MONTHS ENDED MARCH 31, 2019 AND 2018**

### ***Operating Activities***

Operating activities provided cash of \$113.5 million in the first three months of 2019 compared to cash provided by operating activities of \$106.2 million in the first three months of 2018. The \$7.3 million increase in cash flows from operating activities was mainly due to an increase in cash provided by working capital during the three months ended March 31, 2019 as compared to the prior-year period. Changes in components of working capital, which we define for the purposes of this cash flow discussion as accounts receivable—Westlake, accounts receivable, net—third parties, inventories, prepaid expenses and other current assets less accounts payable—Westlake, accounts payable—third parties and accrued liabilities, provided cash of \$8.1 million in the first three months of 2019 as compared to \$3.2 million of cash used in the first three months of 2018, resulting in an overall favorable change of \$11.3 million. The favorable change in working capital was mainly attributable to favorable changes in the accounts receivable, accounts payable and accrued liabilities balances. The favorable change in accounts receivable was due to a decline in third party sales prices, and the favorable changes in accounts payable and accrued liabilities were due to the timing of payments to suppliers.

### ***Investing Activities***

Net cash used for investing activities during the first three months of 2019 was \$139.6 million as compared to net cash used for investing activities of \$7.7 million in the first three months of 2018, mainly due to increased net cash investments under our investment management agreement with Westlake and higher capital expenditures at our facilities in the first three months of 2019, as compared to the prior-year period. Capital expenditures during the first three months of 2019 and 2018 were primarily related to projects to improve production capacity or reduce costs, maintenance and safety and environmental projects at our facilities.

### ***Financing Activities***

Net cash provided from financing activities during the first three months of 2019 was \$91.0 million as compared to net cash used for financing activities of \$100.6 million in the first three months of 2018. The cash inflows during the first three months of 2019 were a result of borrowings under the MLP Revolver of \$123.5 million and proceeds from the private placement of common units of approximately \$62.9 million. The outflows during the first three months of 2019 were related to the distribution of \$81.5 million to Westlake and of \$14.0 million to other unitholders by the Partnership. The cash outflows during the first three months of 2018 were related to the distribution of \$91.1 million to Westlake and of \$13.1 million to other unitholders by the Partnership. The distributions in the first three months of 2018 were partially offset by borrowings under the OpCo Revolver of \$3.6 million.

## **LIQUIDITY AND CAPITAL RESOURCES**

### ***Liquidity and Financing Arrangements***

On March 29, 2019, we completed the private placement of 2,940,818 common units at a price of \$21.40 per unit. Proceeds from the issuance of these common units were approximately \$62.9 million. The Partnership believes that, with the proceeds from this private placement, there will be no further need for the Partnership to access the equity capital markets during the remainder of 2019.

Pursuant to the terms of the ATM Agreement, the Partnership may offer and sell the Partnership's common units from time to time to or through the Managers, as the Partnership's sales agents or as principals, having an aggregate offering amount of up to \$50.0 million. The Partnership intends to use the net proceeds of sales of the common units, if any, for general partnership purposes, including the funding of potential drop-downs and other acquisitions. No common units had been issued under this program as of March 31, 2019.

Based on the terms of our cash distribution policy, we expect that we will distribute to our partners most of the excess cash generated by our operations. To the extent we do not generate sufficient cash flow to fund capital expenditures, we expect to fund them primarily from external sources, including borrowing directly from Westlake, as well as future issuances of equity and debt interests.

The Partnership maintains separate bank accounts, but Westlake continues to provide treasury services on our behalf under the Services and Secondment Agreement. Our sources of liquidity include cash generated from operations, the OpCo Revolver, the MLP Revolver and, if necessary and possible under then current market conditions, the issuance of additional common units representing limited partner interests of the Partnership, other classes of units representing limited partners interests of the Partnership or debt securities. We believe that cash generated from these sources will be sufficient to meet our short-term working capital requirements and long-term capital expenditure requirements and to make quarterly cash distributions. Westlake may also provide other direct and indirect financing to us from time to time, although it is not required to do so.

In order to fund non-annual turnaround expenditures, we cause OpCo to reserve approximately \$30.0 million during each twelve-month period for turnaround activities. Each of OpCo's ethylene production facilities requires turnaround maintenance approximately every five years. By reserving additional cash annually, we intend to reduce the variability in OpCo's cash flow. Westlake's purchase price for ethylene purchased under the Ethylene Sales Agreement includes a component (adjusted annually) designed to cover, over the long term, substantially all of OpCo's turnaround expenditures.

Our cash is generated from cash distributions from OpCo. OpCo is a restricted subsidiary under certain indentures governing Westlake's senior notes. The indentures governing Westlake's senior notes prevent OpCo from making distributions to us if any default or event of default (as defined in the indentures) exists. Westlake's credit facility does not prevent OpCo from making distributions to us.

On April 30, 2019, the board of directors of Westlake Chemical Partners GP LLC, our general partner, approved a quarterly distribution of \$0.4452 per unit payable on May 28, 2019 to unitholders of record as of May 13, 2019, which equates to a total amount of approximately \$15.7 million per quarter, or approximately \$62.7 million per year in aggregate, based on the number of common units outstanding on March 31, 2019. We do not have a legal or contractual obligation to pay distributions on a quarterly basis or any other basis at our minimum quarterly distribution rate or any other rate.

### ***Capital Expenditures***

Westlake has historically funded expansion capital expenditures related to Lake Charles Olefins and Calvert City Olefins. During the three months ended March 2018, Westlake loaned OpCo \$3.6 million to fund capital expenditures. Total capital expenditures for the three months ended March 31, 2019 were \$12.1 million. No funding was required by OpCo to fund capital expenditures during the three months ended March 31, 2019. We expect that Westlake will loan additional cash to OpCo to fund its expansion capital expenditures in the future, but Westlake is under no obligation to do so.

### ***Cash and Cash Equivalents***

As of March 31, 2019, our cash and cash equivalents totaled \$84.6 million. In addition, we have cash invested under the Investment Management Agreement (as described below) and a revolving credit facility with Westlake available to supplement cash if needed, as described under "Indebtedness" below.

In August 2017, the Partnership, OpCo and Westlake executed the Investment Management Agreement that authorized Westlake to invest the Partnership and OpCo's excess cash with Westlake for a term of up to a maximum of nine months. Per the terms of the Investment Management Agreement, the Partnership earns a market return plus five basis points and Westlake provides daily availability of the invested cash to meet any liquidity needs of the Partnership or OpCo. The Partnership had \$276.5 million of cash invested under the Investment Management Agreement at March 31, 2019.

### ***Indebtedness***

#### ***OpCo Revolver***

In connection with the IPO, OpCo entered into a \$600.0 million revolving credit facility with Westlake (the "OpCo Revolver") that may be used to fund growth projects and working capital needs. As of March 31, 2019, outstanding borrowings under the OpCo Revolver totaled \$224.1 million and bore interest at the LIBOR rate plus 2.0%, which is accrued in arrears quarterly. On September 25, 2018, the OpCo Revolver was amended to extend the scheduled maturity date from August 4, 2019 to September 25, 2023 and revise the applicable margin from 3% to 2%. In April 2019, the Partnership repaid \$201.4 million of borrowings under the OpCo Revolver.

### *MLP Revolver*

In 2015, we entered into a senior, unsecured revolving credit agreement with Westlake Chemical Finance Corporation, an affiliate of Westlake (the "MLP Revolver"). The MLP Revolver has a borrowing capacity of \$600 million and is scheduled to mature in 2021. On March 29, 2019, the Partnership borrowed \$123.5 million under the MLP Revolver to partially fund the purchase of an additional 4.5% interest in OpCo. Borrowings under the MLP Revolver bear interest at LIBOR plus a spread ranging from 2.0% to 3.0% (depending on our consolidated leverage ratio), payable quarterly. The MLP Revolver provides that we may pay all or a portion of the interest on any borrowings in kind, in which case any such amounts would be added to the principal amount of the loan. The MLP Revolver requires that we maintain a consolidated leverage ratio of either (1) during any one-year period following certain types of acquisitions (including acquisitions of additional interests in OpCo), 5.50:1.0 or less, or (2) during any other period, 4.50:1.0 or less. The MLP Revolver also contains certain other customary covenants. The repayment of borrowings under the MLP Revolver is subject to acceleration upon the occurrence of an event of default. As of March 31, 2019, outstanding borrowings under the MLP Revolver totaled \$377.1 million. We intend to use the MLP Revolver to purchase additional limited partnership interests in OpCo in the future, in the event OpCo desires to sell such additional interests to us, for other acquisitions and for general corporate purposes.

### *Off-Balance Sheet Arrangements*

None.

### **FORWARD-LOOKING STATEMENTS**

Certain of the statements contained in this report are forward-looking statements. All statements, other than statements of historical facts, included in this report that address activities, events or developments that we expect, project, believe or anticipate will or may occur in the future are forward-looking statements. Forward-looking statements can be identified by the use of words such as "believes," "intends," "may," "should," "could," "anticipates," "expects," "will" or comparable terminology, or by discussions of strategies or trends. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we cannot give any assurances that these expectations will prove to be correct. Forward-looking statements relate to matters such as:

- the amount of ethane that we are able to process, which could be adversely affected by, among other things, operating difficulties;
- the volume of ethylene that we are able to sell;
- the price at which we are able to sell ethylene;
- industry market outlook, including prices and margins in third-party ethylene and co-products sales;
- the parties to whom we will sell ethylene and on what basis;
- volumes of ethylene that Westlake may purchase, in addition to the minimum commitment under the Ethylene Sales Agreement;
- timing, funding and results of capital projects;
- our intended minimum quarterly distributions and the manner of making such distributions;
- our ability to meet our liquidity needs;
- timing of and amount of capital expenditures;
- the Partnership's At-the-Market program and the use of any net proceeds from any sales under that program;
- potential loans from Westlake to OpCo to fund OpCo's expansion capital expenditures in the future;
- expected mitigation of exposure to commodity price fluctuations;
- turnaround activities and the variability of OpCo's cash flow;
- compliance with present and future environmental regulations and costs associated with environmentally related penalties, capital expenditures, remedial actions and proceedings, including any new laws, regulations or treaties that may come into force to limit or control carbon dioxide and other greenhouse gas emissions or to address other issues of climate change; and
- effects of pending legal proceedings.

We have based these statements on assumptions and analysis in light of our experience and perception of historical trends, current conditions, expected future developments and other factors we believe were appropriate in the circumstances when the statements were made. Forward-looking statements by their nature involve substantial risks and uncertainties that could significantly impact expected results, and actual future results could differ materially from those described in such statements. These statements are subject to a number of assumptions, risks and uncertainties, including those described under "Risk Factors" in the 2018 Form 10-K and the following:

- general economic and business conditions;
- the cyclical nature of the chemical industry;
- the availability, cost and volatility of raw materials and energy;
- uncertainties associated with the United States and worldwide economies, including those due to political tensions and unrest in the Middle East and elsewhere;
- current and potential governmental regulatory actions in the United States and regulatory actions and political unrest in other countries, including environmental regulations;
- industry production capacity and operating rates;
- the supply/demand balance for our product;
- competitive products and pricing pressures;
- instability in the credit and financial markets;
- access to capital markets;
- terrorist acts;
- operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, labor difficulties, transportation interruptions, spills and releases and other environmental risks);
- changes in laws or regulations;
- technological developments;
- our ability to integrate acquired businesses;
- foreign currency exchange risks;
- our ability to implement our business strategies; and
- creditworthiness of our customers.

Many of these factors are beyond our ability to control or predict. Any of the factors, or a combination of these factors, could materially affect our future results of operations and the ultimate accuracy of the forward-looking statements. These forward-looking statements are not guarantees of our future performance, and our actual results and future developments may differ materially from those projected in the forward-looking statements. Management cautions against putting undue reliance on forward-looking statements or projecting any future results based on such statements or present or prior earnings levels. Every forward-looking statement speaks only as of the date of the particular statement, and we undertake no obligation to publicly update or revise any forward-looking statements.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

#### ***Commodity Price Risk***

A substantial portion of the Partnership's products and raw materials are commodities whose prices fluctuate as market supply and demand fundamentals change. However, our direct exposure to commodity price risk is limited to approximately 5% of our total ethylene production, which is the portion sold to third parties. We believe we have substantially mitigated our indirect exposure to commodity price fluctuations during the term of the Ethylene Sales Agreement through the minimum commitment and the cost-plus based pricing. Additionally, we may use short-term derivative instruments to reduce price volatility risk on feedstocks and ethylene associated with the production and sales to third parties. We entered into some of these agreements in December 2018. Based on our open derivative positions as of March 31, 2019, a hypothetical \$0.10 increase in the price of a gallon of ethane would have increased our income before taxes by \$1.3 million and a hypothetical \$0.10 decrease in the price of a pound of ethylene would have increased our income before taxes by \$3.2 million.

#### ***Interest Rate Risk***

We are exposed to interest rate risk with respect to our outstanding debt, all of which is variable rate debt. At March 31, 2019, we had total variable rate debt of \$601.1 million outstanding, all of which was owed to wholly-owned subsidiaries of Westlake, and currently accrues interest at a variable rate of LIBOR plus 200 basis points. The weighted average variable interest rate of our debt as of March 31, 2019 was 4.8%. We will continue to be subject to interest rate risk with respect to our variable rate debt as well as the risk of higher interest cost if and when this debt is refinanced. A hypothetical increase in our average interest rate on variable rate debt by 100 basis points would increase our annual interest expense by approximately \$6.0 million, based on the March 31, 2019 debt balance.

### **Item 4. Controls and Procedures**

We carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rules 13a-15 or 15d-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report. Based upon that evaluation, our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that our disclosure controls and procedures are effective with respect to (i) the accumulation and communication to our management, including our Chief Executive Officer and our Chief Financial Officer, of information required to be disclosed by us in the reports that we submit under the Exchange Act, and (ii) the recording, processing, summarizing and reporting of such information within the time periods specified in the SEC's rules and forms.

There were no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

The 2018 Form 10-K, filed on March 1, 2019, contained a description of various legal proceedings in which we are involved, including environmental proceedings. See below and Note 12 to the unaudited consolidated financial statements within this Quarterly Report on Form 10-Q for a discussion on legal proceedings, which information is incorporated by reference herein.

Under the Omnibus Agreement, Westlake Chemical Corporation ("Westlake") has agreed to indemnify the Partnership for certain environmental and other liabilities relating to OpCo's processing facilities and related assets.

*Potential Flare Modifications.* For several years, the Environmental Protection Agency ("EPA") has been conducting an enforcement initiative against petroleum refineries and petrochemical plants with respect to emissions from flares. On April 21, 2014, Westlake received a Clean Air Act Section 114 Information Request from the EPA which sought information regarding flares at the Calvert City and Lake Charles facilities. The EPA has informed Westlake that the information provided leads the EPA to believe that some of the flares are out of compliance with applicable standards. The EPA has indicated that it is seeking a consent decree that would obligate Westlake to take corrective actions relating to the alleged noncompliance. The Partnership believes the resolution of these matters may require the payment of a monetary sanction in excess of \$100,000.

*Risk Management Program Investigation.* The EPA has conducted inspections and information requests to assess compliance with Risk Management Program requirements under the Clean Air Act at the Calvert City facility. The EPA has identified concerns with the facility's compliance under the Risk Management Program and Release Prevention regulations in connection with certain emissions release events between 2011 and 2015. Westlake has engaged in communications with EPA to resolve these concerns. Westlake has reached an agreement in principle with the EPA to resolve all concerns for a penalty of \$49,000 and an \$184,000 supplemental environmental project involving the purchase of emergency response equipment for Marshall and Livingston Counties. The EPA and Westlake are currently finalizing the settlement documents.

In addition to the matters described above, the Partnership is involved in various legal proceedings incidental to the conduct of its business. The Partnership does not believe that any of these legal proceedings will have a material adverse effect on its financial condition, results of operations or cash flows.

#### **Item 1A. Risk Factors**

For a discussion of risk factors, please read Item 1A, "Risk Factors" in the 2018 Form 10-K. There have been no material changes from those risk factors.

#### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

On March 29, 2019, the Partnership completed the private placement of 2,940,818 common units pursuant to an exemption from registration under Section 4(a)(2) of the Securities Act of 1933, as amended. Proceeds to the Partnership from the sale of the units were approximately \$62,934 and were used, along with borrowings under the MLP Revolver, to purchase an additional 4.5% limited partner interest in OpCo for approximately \$201.4 million.

*Exhibit 31.2*

### **CERTIFICATIONS**

I, M. Steven Bender, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Westlake Chemical Partners LP;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Westlake Chemical Partners LP (the "Partnership") on Form 10-Q for the fiscal quarter ended March 31, 2019 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Albert Chao, President, Chief Executive Officer and Director of the Partnership, and I, M. Steven Bender, Senior Vice President, Chief Financial Officer and Director of the Partnership, certify, to the best of our knowledge, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Report fairly presents, in all material aspects, the financial condition and results of operations of the Partnership.
